ABOUT NELSON MANDELA UNIVERSITY

Our Brand

Together we are **Nelson Mandela University**. We are the only University in the world to be named after Nelson Mandela. Our iconic South African statesman, humanitarian and leader that is known globally for what he achieved.

We are honoured as **Nelson Mandela University** to carry his name. In return, we honour our namesake by endeavoring to live his legacy. We honour him by using his name in full. We are **Nelson Mandela University**.

Our Logo

We developed a modern, font-based logo to communicate a forward-thinking concept. With its dynamic African feel, it sets Nelson Mandela University apart from its competition. The use of the circle and the triangle in the name creates a playful feel while alluding to ingenuity and creativity – two vital ingredients for change.

The colour palette was specifically chosen to reflect the University values and to add gravitas to the logo. We opted for blue, as it symbolizes heritage, strength and trustworthiness. The bright yellow was chosen to add approachability, freshness and warmth.

WE ARE NELSON MANDELA UNIVERSITY

As a socially embedded African university in the service of society, we offer a range of life-changing educational experiences, impactful research and innovation, and transformative engagement.

These academic core missions are rooted in and informed by recent milestones in the University's history, such as the 2017 name change to Nelson Mandela University, the Vice-Chancellor's listening campaign, inaugural and Advancing Mandela addresses, and a transversal organizational redesign process.

We offer quality higher education to nearly 32 000 students across seven campuses, making us the largest university in the Eastern and Southern Cape.

What we offer

Nelson Mandela University is a comprehensive university that offers both general formative and professionally orientated academic programmes from certificate to doctoral level.

We have a strong track record in both fundamental and applied research, working extensively in partnership with business, industry, government, and civil society. The institution has 500 study programmes across seven faculties that are internationally recognized and accredited by the relevant professional bodies. State-of-art IT services include WiFi connectivity across all campuses and numerous off-campus facilities, as well as advanced technological resources and digital aids geared to effective in-person and blended modes of learning and teaching.

Along with a first-class academic education, Nelson Mandela University provides students with a vibrant student life beyond the classroom.

Our Campuses

Our seven campuses have a large, ever-increasing footprint, with six in Gqeberha and one in George.

Of these, four are in Summerstrand, one in Bird Street in Central and one in Missionvale. Our North and South campuses in Summerstrand are located on an 840-hectare private nature reserve.

Our George Campus is on the Garden Route, midway between Nelson Mandela Bay and Cape Town. Set at the foot of the Outeniqua Mountains, our "sustainability" campus is where our ecological footprint meets business acumen for a sustainable future.

Facilities and supportive learning and teaching environment

Nelson Mandela University is privileged to have outstanding facilities. All students have access to well-equipped laboratories, some of which are open 24/7, and free Wi-Fi throughout all its campuses. All lecture halls are equipped with the latest technology and students have the opportunity of using additional e-learning tools online. The campus libraries and information services network offer a state-of-the-art integrated online system. There are cafeterias, food courts and coffee shops.

A range of opportunities is provided to enhance the academic success of students. These include a first-year orientation programme, peer-facilitated learning opportunities (e.g. Supplemental Instruction, e.g. e-PAL, tutorials, practicals, mentor programmes, 'Keys to Success' workshops and online resources). The University also promotes learning and development beyond the classroom towards enhancing holistic student development. To recognise this learning, Nelson Mandela University has developed an innovative, electronic co-curricular record system. This record complements the students' academic record.

The University also offers the finest sporting facilities in the Eastern Cape and numerous venues for conferences, meetings and other special events.

Research, Innovation and Internationalisation entities

Nelson Mandela University has more than 30 focused institutes, centres and units that exist over and above the formal academic structures. These are aimed at promoting research, technology transfer and innovation. They include the likes of InnoVenton, the University's go-getting Institute for Chemical Technology and Downstream Chemicals; eNtsa, an institute that focuses on seeking solutions through engineering; Earth Stewardship Science Research Institute (ESSRI); and the Institute for Coastal and Marine Research (CMR – University-wide transdisciplinary ocean and coastal sciences research Institute). Many are award-winning entities. The University also has many more engagement institutes, centres and units and two clinics serving society in various initiatives. Its mobile Zanemphilo health platform, for example, serves both indigent communities and its Health Sciences students with practical experience. The latter forms part of the growing Interprofessional Education (IPE) that will undergird the University's Health Science qualifications as it moves towards the formalisation of its Medical School.

'Green' endeavours

In line with its value of respect for the natural environment, Nelson Mandela University is involved in a large number of "green" initiatives that will not only reduce its own carbon footprint but is also assisting others in seeking renewable energy resource solutions. The university's Business School, for example, was the first in the country to be awarded four-star "green" accreditation for a public and education building by the Green Building Council of South Africa in 2013. The "green" agenda is supported by the Centre for Renewable Energy, which is recognised as a research leader in the field, and the University's overriding strategic priority towards all-round environmental economic and environmental sustainability.

International linkages

Just over 8% of the University's student body comes from 51 different countries outside of South Africa. The Mandela International Office fosters relationships and manages inter-institutional linkages to enrich both Nelson Mandela University staff and students. These partnerships also foster our growing research.

ACADEMIC DRESS

Special academic attire was designed for office-bearers at Nelson Mandela University to be worn at prestigious academic events like graduation.

Each outfit – from that of the Chancellor and Vice-Chancellor to those of the Executive Deans – has been meticulously selected to signify a particular office; this is a tradition that is consistent with universities throughout the world.

The gowns, caps and hoods of Nelson Mandela University graduates were similarly inspired and are explained in detail below.

Nelson Mandela University has redesigned its graduation academic hoods which will be worn for the first time during the Autumn 2026 Graduation Ceremonies.

The adopted design incorporates the pattern used in the ceremonial attire of the Executive Deans of Faculties, which has been carried over to the graduate hoods. This provides meaningful connection and continuity. Using the same pattern across all hoods, while altering the application of faculty and University colours provides visual interest and distinction between the various qualifications and faculties.

Academic dress for graduates at Nelson Mandela University is as follows:

CHAIRS

CHAIR FOR CRITICAL STUDIES IN HIGHER EDUCATION TRANSFORMATION (*CriSHET*)

Chair Prof A Keet
 BA, HDE, BEd, MEd (*cum laude*) (UWC), PhD (Edu Mang, Law and Policy) (UP)

Housed

Nelson Mandela University, Bird Street Campus, Felsted Building, Ground Floor.

About *CriSHET*

Purpose

This is a strategic post introduced to drive the Transformation agenda of the University by grounding it in critical studies and framing it within the concept of an African-purposed curriculum in view of the current debates about the decolonisation of the University. This includes being a strategic resource to various key stakeholders internally and externally and supporting the leadership team, positioning Nelson Mandela University strategically within the higher education sector in order to make strategic impact.

Vision

The Chair seeks to be a premier national, regional and international site for critical studies and praxes in higher education transformation with local and global impact.

Mission

The mission of the Chair comprises the study of higher education transformation, connecting such inquiry to critical social justice praxes and the challenges and contestations within higher education against the backdrop of national, regional and global processes.

Objectives of the Chair

The Chair will focus on original scholarship that critically analyses patterns of inclusion and exclusion and configurations of recognitions and misrecognitions within higher education, particularly focusing on:

- Universities as transformational and transformative social systems and the political economy of higher education;
- Institutional and intellectual cultures and the renewal of cultural traditions, practices and knowledge;
- Socially just pedagogies and its interplay with research and institutional culture;
- Social structure of the academy, transformative academic citizenship and the mechanics of academic 'authority' and 'power';
- The power-relations embedded within the organisation of knowledge, its disciplines and disciples;
- The politics of knowledge and academic publishing;
- Student and staff voices, activism, and the promotion, protection and monitoring of human rights within the sector;
- The connectionist dynamics between higher education and the state, private sector, advocacy and interest groups, pressure formations and the broader society; and
- African-purposed curricula and the decolonisation of higher education.

Praxis

The research of the Chair joins up with the practical expression of the strategic transformation imperatives and programmes of Nelson Mandela University and the South African higher education sector; including policy and programmatic work.

CENTRE FOR COMMUNITY SCHOOL (CCS)

Director: (Acting) Mr Mzuzu

Mission

The Centre for the Community School aims to contribute to educational improvement in South Africa by developing theoretical and practice-based models of school improvement that are relevant and responsive to the contextual realities of schools in South Africa.

Housed

The Centre forms part of the Education Faculty and is housed on the Missionvale Campus in Building no 519, 1st Floor

Objectives and Functions:

One of the key objectives of CCS is to serve as a national resource centre that elevates the concept of the Community School as a credible, replicable and sustainable model for educational improvement in South Africa. The activities of the Centre will revolve around the following focus areas:

- **Teaching:** The Centre will facilitate the development of a course on the Community School Teacher that focuses on the knowledge, dispositions, and skills required by current and aspiring educators working in Community Schools.
- **Internships:** Students enrolled in Nelson Mandela University's Education Faculty who are taking any of the above courses will be able to do an internship in a Community School and work on a practice/research-based project as part of their coursework. Due to the cross-disciplinary focus of the Centre, internships will also be offered to students from other departments at Nelson Mandela University, for example Psychology, Counselling and Social Work, whose areas of interest have direct relevance to the work of the Community School.

- **Research and Publications:** The Centre will offer research opportunities to master's and doctoral students through its projects. Faculty members will also produce research articles for publication in accredited journals.
- **Community School Improvement Programmes:** The Centre will offer a programme of events that focuses on school and community improvement, and is aimed at students, parents, teachers and other community members. These programmes will encourage community-wide interest and engagement in school-related activities. It will include workshops, short courses, guest lectures, community conversations, information sessions, and film screenings.
- **Resource Centre:** The Centre will gather information on Community School-related resources, and refer community members, educators, and other school partners to appropriate resources as needed in their efforts to support and advance the Community School concept.
- **Networking:** In seeking to support and promote the concept of the Community School as an important school improvement model, the Centre will establish relationships with other groups and organisations that have a similar focus in South Africa and other countries.

REGISTERED RESEARCH ENTITIES

INSTITUTES

AEON – EARTH STEWARDSHIP SCIENCE RESEARCH INSTITUTE

Director Dr Bastien Linol
 PhD (Nelson Mandela University)
 Research Associate Prof Peter Vale
 Research Adm Mrs Emily Bosire

Mission

AEON-ESSRI aims to provide a university-wide research and educational environment to seek consilient knowledge and engagement amongst earth and life sciences, engineering, resource economics, human and cultural sciences through application and dissemination of Earth Stewardship Science. It will foster cutting-edge, internationally-connected, science and analytical learning using advanced tools and technologies in an environment that fosters solving complex problems through transdisciplinary science to explore sustainability for people and the planet, particularly in Africa.

Housed

The Earth Stewardship Research Institute is temporarily housed in the Science Faculty (Building 13) South Campus.

History

AEON-ESSRI was established in August 2013 at the Nelson Mandela University out of AEON - Africa Earth Observatory Network, a self-managed research entity founded in 2005 while the co-founders were at the University of Cape Town.

Description of major programs and services

+AEON-ESSRI will endeavour to continue as a lead institute in the DST's Global Change Grand Challenges program, as AEON has done, and provide an enabling space for transdisciplinary programmes and research chairs between Departments and Faculties of Nelson Mandela University between Science and Humanities.

- **Research and Development**

Research at AEON-ESSRI is focused on:

"iPhakade" – *'Observe the present and consider the past to ponder the future'* Under this motto, AEON-ESSRI aims to induce and catalyse the emergence of a new trans-disciplinary science – Earth Stewardship Science – that will integrate research on, and teaching in, our understanding of the dynamic resilience of our Earth-Life-Social System and help us to better define our life support systems within which we will mitigate, adapt, and manage the global commons in the Anthropocene. Major research programmes of national and international interest, and all multidisciplinary in character, include:

1. Skills development program

The primary objective is to produce graduates who can compete globally and become African leaders in their fields. A core component is thus strengthening foundational field skills, including training to make direct observation, measurement, mapping, and sampling. To address this, AEON students participate in annual field schools and laboratory activities. In all cases, they will collect and analyse their own research data.

2. Water quality monitoring and geo-health in Africa

The major goal of this programme is to improve geo-health linked to water quality monitoring in selected areas of Africa (South Africa, Ghana, and Kenya). As climate change exacerbates water pollution and creates conditions more conducive to cholera, typhoid, and to the growth of malaria mosquito larvae in stagnant waters, the goal is to involve local communities, especially women and schoolchildren, in water monitoring through citizen science. Unlike conventional research methods, the approach involves scientists working together with local communities to characterize the water sources.

3. Stable isotope and noble gas isotope geochemistry

Another major programme is to establish a laboratory for isotope geochemistry at Nelson Mandela University. This will enhance local technical capacity for research in environmental and ocean sciences, facilitating transdisciplinary collaboration through specialized techniques that apply across various fields. It will also elevate the quality of education by providing hands-on training in stable isotope and noble gas mass spectrometry.

4. Terrestrial and marine geophysics

AEON's geophysical research programme is focused on collecting new data on land and at sea, particularly across the Eastern Cape, which is an exceptional natural laboratory in the southwest Indian Ocean. The aim is to help establish baseline data with findings that meaningfully contribute to fundamental knowledge: in tectonics, climate, and marine habitats, while also pioneering Marine Geosciences, which is wanted for future coastal and marine development.

5. Resource valuation and sustainability

In addition to exploring for natural resources, including petroleum, shale gas, groundwater, uranium, and diamonds, this programme investigates lesser known economic and environmental impacts of sea-level changes, greenhouse gases, soil erosion, and geologic hydrogen. It is essentially based on field work and assisted by Geographic Information Systems, and laboratory experiments.⁶ Africa Alive Corridors

Twenty designated corridors explore the geo-biological and cultural heritage of the continent, from deep time to the Anthropocene. Each corridor uses a specific lens through which to tell some of the rich stories embedded within it. This facilitates learning and knowledge exchange across numerous disciplines. It will also help communicating the stories to a broader audience.

MARINE APEX PREDATOR RESEARCH UNIT (MAPRU)

Head Professor PA Pistorius
BSc (UnivPmb), BScHons (UP), MSc (UP), PhD (UP)

The Marine Apex Predator Research Unit (MAPRU) is a research unit within the Institute for Coastal and Marine Research (CMR).

Mission

Our research focuses on marine top predators as a group addressing questions of fundamental and applied interest by drawing on a range of disciplines. Many marine top predator species are threatened and research undertaken will accordingly have a strong conservation focus. At the upper limit of the food chain, marine top predators are generally good indicators of global change as well as areas of high productivity. Marine top predators (at the species and community level) will therefore also be used to better understand ecosystem changes and for conservation based spatial planning.

Geographically, most of our projects are focused on the South African coastline and in the sub-Antarctic region, but also extend into Mozambique and Namibia.

Our members are based mostly at Nelson Mandela University, but a number are based at other institutions, and we maintain collaborative links with many international institutions.

Objectives

MAPRU was established in early 2016 with the following objectives:

- To conduct research on marine top predators, including seabirds, seals, sharks and cetaceans particularly in relation to global change, conservation and sustainable resource management.
- To provide learning opportunities and train postgraduate students in various aspects involving marine top predators.
- To be involved in various forms of engagement, using charismatic predator species to stimulate public interest in marine biodiversity and conservation.

Housed

The majority of MAPRU members are based in the Department of Zoology, with some being based at the Ocean Sciences Campus.

SUSTAINABILITY RESEARCH UNIT (SRU)

Acting Head Adj. Prof Herve Fritz
 PhD (University of Paris 6 - Pierre et Marie Curie), France

Mission

The mission of the Sustainability Research Unit is to be a catalyst of change towards more harmonious relationships between society and the biosphere - a good Anthropocene.

Housed

The Unit is housed on the 1st and 2nd Floor in the Research Building, George Campus.

Objectives and function

The SRU vision is to be a catalyst of change towards more harmonious relationships between society and the biosphere - a Good Anthropocene. We are a trans-disciplinary hub for new thinking where scholars, decision makers and practitioners gather to deliberate social ecological problems and re-frame them as opportunities, which the SRU helps to address through research. The SRU has an inclusive, humanizing culture providing the space for motivated students and academics to grow and thrive. We consider ourselves to be bridging agents, connectors and communicators, agents of change who gather multiple evidence and then facilitate the translation of science into social understanding. In our quest for a good Anthropocene, the SRU's focus is to gather and communicate evidence to promote better understanding of the challenges facing society and the natural environment. We strive to adaptively address these challenges using trans-disciplinary complex systems frameworks and participatory learning and action. We build credibility and relevance by listening, asking the right questions, providing reliable information and learning with our stakeholders through action on the ground.

The SRU goals are to 1) develop integrated information systems and models, based on good science, to enable more sustainable management of social-ecological systems; 2) provide scientific information about the causes, impacts, consequences and good ecosystem management practices related to climate change; 3) develop and implement strategies to promote sustainability in urban

development, tourism, agriculture, forestry, fisheries and biodiversity conservation; 4) offer training courses to raise awareness and build capacity; 5) promote the health and well-being of society and the ecosystems we are part of.

International Priority Programme:

International research Lab REHABS “Reconciling Ecological and Human Adaptations for Biosphere Sustainability”. This programme is attached to the SRU, it is a joint international research unit between CNRS (France) and NMU, with University of Lyon and University of Angers as French universities involved, and SANParks as an associate institution. The IRL REHABS aims to strengthen research at the interface between ecosystem management, biodiversity conservation and sustainability, by focusing on exploring joint ecological and social mechanisms for ensuring a biosphere-based sustainability (sensu Folke et al. 2016). Through its creation and positioning on the George Campus, the IRL-REHABS is the critical bridge between SRU and the Natural Resource Science & Management Cluster, and thus builds up critical mass in Research, Post-graduate Supervision and International Partnerships on the George campus.

LANGUAGE POLICY OF THE UNIVERSITY

1. PREAMBLE

- 1.1 Whereas the Language Policy of the Nelson Mandela University is designed to be consistent with Sections 6 and 29(2) of the *Constitution of South Africa*, Section 27(2) of the *Higher Education Act of 1997*, the *National Plan for Higher Education (2001)*, the Report from the Council on Higher Education, (2001), the Report from the Gerwel Committee on *The Position of Afrikaans in the University System (2002)*, the Ndebele Report on *Development of Indigenous Languages as Mediums of Instruction in Higher Education (2003)*, the *White Paper for Post-School Education and Training (2013)*, and *National Language Policy Framework for Public Universities (2020)*;
- 1.2 Whereas the nature and spirit of these national policy documents suggest that the acceptance of the linguistic realities of South African society by incorporating the principles of multilingualism can only lead to communicative empowerment and the optimisation of students’ intellectual potential;
- 1.3 Whereas in the context of a University with a vision to be a “dynamic, African University recognised for its leadership in generating cutting-edge knowledge for a sustainable future” and that seeks to “offer a diverse range of life-changing educational experiences for a better world” this Policy is developed to pursue the vision and mission of the University;
- 1.4 Therefore, in acknowledging the linguistic diversity of the University communities, and the dominance of indigenous African languages, the Language Policy recognises multilingualism as a unique feature of a University located in Africa, and seeks to draw from it in its business of knowledge generation. This is important in our context where, historically, social injustices were waged around language.

2. PURPOSE

Generally, the linguistic composition of our student body comprises about 80% speakers of indigenous African languages, and 20% Afrikaans and English speakers while the staff linguistic composition is the opposite. In 2024, 52% of students reported isiXhosa as their primary language.

Considering the important relationship between one’s primary language and cognition, our pedagogies must adapt to our linguistic environment where students’ primary languages, which they use as languages of learning in and outside of the classroom, are considered even while English, because of its historical privilege, is still used as medium of instruction. Therefore,

- 2.1 The purpose of the Language Policy at Nelson Mandela University is to provide a guide for the use, promotion, development, and management of languages with respect to all communication practices of our institution, i.e. learning and teaching, research and innovation, engagement and transformation, administration, and internal and external communication;

- 2.2 The intention is to accomplish this in a framework that enhances the benefits of multilingualism, recognizing the linguistic and cultural diversity of our University communities¹, and that leverages on that to advance academic success of our students, equity, equality and a transformative inclusive institutional culture;
- 2.3 The Language Policy acknowledges the historic position of English and its ability to strategically position the University, its staff and students within a global network of knowledge flows, and its power as a local and global lingua franca;
- 2.4 The historical position of English as the main language of academia in South Africa is beyond doubt, yet this dominance has a number of consequences. Firstly, as research shows, it means that it is much more difficult for students speaking languages other than English to gain access to the University and to be academically successful. Conceptual learning is enhanced by the use of primary languages. Secondly, maintaining the power of English necessarily results in the exclusion and marginalisation of speakers of other languages. Thirdly, the academic project is unable to benefit from the knowledges to be derived from using African languages as ‘epistemic reservoirs’ or ‘sources of knowledge’;
- 2.5 As such, the Language Policy proposes multilingual approaches to address these tensions inspired by the national and institutional goals of transformation, Africanisation and decolonisation that position the development of African languages as an inroad to expand our African repertoires and ‘ways of knowing’ to orient ourselves, our relationships with others, and the point from which we engage with the world;
- 2.6 The University will approach multilingualism in terms of its value for communication between speakers of diverse languages, as well as for the epistemic value it carries as it seeks to engage with languages as ‘sources of knowledge’, especially in cases where those languages have been de-intellectualised, as in the case of isiXhosa. These objectives will be carried into the various domains of language use of the University in the form of multilingual pedagogies, institutional research objectives, and institutional communication practices.
- 2.7 In summary the purpose is to:
- 2.7.1 guide the University on recognition and promotion of multilingualism in learning and teaching, research, engagement, and other communication practices;
- 2.7.2 advance institutional transformation by enhancing the status and roles of dominant and previously marginalised languages such as isiXhosa, in order to foster epistemic access and success, inclusion and social cohesion;
- 2.7.3 provide guidelines on the development of a Language Policy implementation plan, its monitoring and evaluation.

¹ In line with the engagement vocabulary the University endorses, the University recognises multiple communities which includes staff and students, as well as those outside the University.

- 2.8 Our approach is therefore to:
- 2.8.1 acknowledge and respond to provisions and intent of the South African Constitution, the Language Policy Framework for Public Universities, Nelson Mandela University's Vision 2030 and the Nelson Mandela University Institutional Transformation Plan (ITP) that seek to recognise and nurture the value of linguistic diversity/multilingualism, and respond to issues of social justice and inclusion for success in learning and the working environment;
 - 2.8.2 recognise the historical positioning of English and its ability to sustain global networks of knowledge;
 - 2.8.3 re-intellectualise previously marginalised language identified in the Policy, and develop it further for scientific use;
 - 2.8.4 introduce and facilitate multilingual pedagogies as an approach to learning and teaching;
 - 2.8.5 enable language translation and interpretation in the internal and external communication practices of the University located in Africa, and specifically the Eastern Cape;
 - 2.8.6 spearhead the development of an isiXhosa literary archive based on the works of early African intellectuals with the aim of archiving their literary works to facilitate linguistic diversity of the academic canon.

3. ORGANISATIONAL SCOPE

- 3.1 This Policy, which seeks to enhance and deepen engagement with multilingualism, has University-wide application and applies to:
- 3.1.1 Teaching and Learning, Research and Innovation, Engagement, and Transformation;
 - 3.1.2 External and internal communication, administration; and
 - 3.1.3 Public events and ceremonies associated with the University.

4. INSTITUTIONAL CONSIDERATIONS

- 4.1 As a University "in service of society", the Policy recognises that our language practices, where English is the primary language of communication, may exclude the society we serve. The reality of monolingualism in favour of English stands in sharp contrast to the University's Vision 2030 and ITP which includes the University's strategic focus areas of an inclusive transformative institutional culture, humanising innovating learning and teaching, inclusive student and employee access for success, transformative engagement, impactful research, innovation, and internationalization;
- 4.2 Multilingualism, when it recognises the link between language and cognition, has the potential to play a significant role in humanising the classroom and workplace experience;
- 4.3 A multilingual humanising classroom experience, as a centerpiece of the University, has the potential to create ripple effects wherein all languages are seen as 'sources of knowledges' which influences other domains, like research and engagement;

- 4.4 Multilingualism, employed in a substantive manner, underpins all the foundational values that the University espouses such as ubuntu, excellence, integrity, respect for diversity, social justice and equality, and sustainable stewardship.

5. NATIONAL LEGISLATION AND INSTITUTIONAL CONSIDERATIONS²

- Constitution of the Republic of South Africa, 1996 (Section 29(2))
- Higher Education Act 101 of 1997
- White Paper for Post-School Education and Training (2013)
- National Language Policy Framework for Public Universities (2020)
- Pan South African Language Board Act 59 of 1995;
- National Development Plan (NDP) 2030
- Nelson Mandela University Vision 2030
- Nelson Mandela University Institutional Transformation Plan

6. PRINCIPLES UNDERPINNING THE LANGUAGE POLICY

6.1 The Language Policy is embedded in the following principles:

- 6.1.1 recognising the inherent role of language in enhancing and optimising access and success in the teaching and learning, research process, and employee access and success in the workplace;
- 6.1.2 recognising the full potential of the use of the University's official languages in the divisions of Academic Administration, Human Resources and Student Development;
- 6.1.3 pioneering multilingualism and the re-intellectualisation of isiXhosa for scientific use and its contribution to the values of Nelson Mandela University concerning inclusion, diversity, social justice, respect and, ultimately, ubuntu;
- 6.1.4 exploring, in the context of 'humanising pedagogy', the role of primary language in liberating human potential;
- 6.1.5 recognising all languages as potential 'sources of knowledge'.

7. POLICY STATEMENT

The Nelson Mandela University Language Policy takes into account the languages of the geographical environment of the University, the histories of this region, and the student and staff body.

- 7.1 In recognition of multilingualism and its potential to enable cognition and transformation, the languages of learning and teaching, research and engagement, assessment, administration, and internal and

² This Policy also recognises the Report on the Ministerial Committee for Transformation and Social Cohesion and the Elimination of Discrimination in Public Higher Education Institutions (2008), the South African Human Rights Commission Report on Transformation at Public Universities in South Africa (2016), the Report from the Gerwel Committee on The Position of Afrikaans in the University System (2002), the Ndebele Report on Development of Indigenous Languages as Mediums of Instruction in Higher Education (2003)

external communication will be isiXhosa, Afrikaans, and English.³ These languages will play different roles according to these University domains;

- 7.2 The University must promote the use of South African Sign Language in Learning and Teaching, and Engagement, where there is a need, as well as in public events and ceremonies;
- 7.3 Cognisant of the historical and political context of African languages, as outlined in the preamble, English will be the main medium of instruction (due to its historical positioning) except where other languages are subjects of study. IsiXhosa and Afrikaans will be languages of learning and teaching. English, as the medium of instruction, will be used together with isiXhosa and Afrikaans;
- 7.4 The languages of learning and teaching will be used to foster access to knowledge, recognition of different lived experiences, and the fostering of multilingualism;
- 7.5 Given the strong emphasis on multilingualism and its importance in enabling epistemic access and success, language planning in each Faculty should outline initiatives on how multilingualism is considered in assessments;
- 7.6 Given the systematic de-intellectualisation of indigenous African languages, the University undertakes to invest resources for re-intellectualisation of isiXhosa for scientific use. In this respect, a major initiative that the University seeks to undertake is to source texts in African languages in specific subject fields with the view to make these available as resources, and to fulfil the objective of positioning African languages as 'sources of knowledge';
- 7.7 All non-academic activities, including student life events, sports, residence life, and student governance, should demonstrate the multilingual nature of our university in keeping with its dedication to inclusivity, and the recognition of linguistic diversity. Communication in at least two of the University's official languages must be attempted, taking into account the participants and the context;
- 7.8 By the next revision date, the Policy envisages progress towards positioning isiXhosa as a scientific language, together with English and Afrikaans, thereby advancing the goal of a truly multilingual University as articulated in the body of the Policy text.

8. LANGUAGE IMPLEMENTATION PLAN, MONITORING AND EVALUATION

- 8.1 The Deputy Vice Chancellor: Learning and Teaching must coordinate development of the institutional Language Policy Implementation Plan, consistent with the institutional Language Policy;
- 8.2 The Language Policy Implementation Plan must consider tools to monitor the implementation of the Language Policy;
- 8.3 All Faculties, Divisions and Units must develop their own Language Implementation Plans in line with the Language Policy and the institutional Language Plan, which respond to language needs in their respective environments;
- 8.4 In Implementation Plans, Faculties, Divisions, and Units must consider use of multilingual resources, and use of multilingual strategies such as multilingual pedagogies, multilingual tutorials,

³ The University bases its decision to use these three languages on the spatial location of the University, the composition of student demographics, and the mandate of the LPHE (2020) to develop a regional approach in developing African languages.

translanguaging and transknowledgeing, that consider students' diverse linguistic repertoires, as strategies for the implementation of the Language Policy;

- 8.5 All Faculties, Divisions, and Units must appoint 'Language Champions' to form part of the institutional Language Working Group;
- 8.6 The Language Working Group must evolve into an Institutional Language Committee that reports to the Learning and Teaching Committee, and Arts, Culture, and Heritage Committee. The responsibility of this committee will be to coordinate the implementation of the Policy, its monitoring and evaluation;
- 8.7 In addition to the above, the function of the Language Working Group is to ensure the inclusion and promotion of multilingualism across academic, administrative, communication and other spheres of the University by aligning language practices in their environments with institutional language priorities as determined in the Language Policy, Implementation Plan, and own plans.
- 8.8 An entity, Multilingualism and African Languages Literary Archive Research Hub, must be established as a centre for the expression of the aspirations of the Language Policy, as well enhance scholarship around language policy implementation at Nelson Mandela University.

NELSON MANDELA UNIVERSITY ADMISSIONS POLICY

1. PURPOSE

The purpose of this policy is to spell out how the Nelson Mandela University gives effect to its commitment to enrolling students based on academic merit and fostering equity of access, opportunities and educational outcomes through its approach to admissions and the criteria employed in making an admission decision. In this regard, the policy addresses the principles that underpin Nelson Mandela University's approach to student admissions, the setting of admission requirements, and the admissions process.

2. DEFINITION OF TERMS

Access "The widening of access to higher education is an equity-driven concern and relates to the strategies and procedures that an institution undertakes to make its educational services accessible to a diversity of students" (Council for Higher Education, 2004, ITL Resource No. 3. Access & Admissions, p. 3). In order for access to be meaningful, students who gain access must have a reasonable possibility of succeeding in their studies. To this end, Osborne and Gallacher (2004) conceptualise access as consisting of three components, namely, "getting in, getting through, and getting on" (p. 11). This implies that universities should:

- a. have flexible admissions criteria, pathways/articulation routes and admissions procedures and processes in place (getting in);
- b. respond to a diversifying student body by aligning the programmes, services, support mechanisms, and approaches to curriculum development, teaching and learning that it has in place to enable students to persist at their studies and graduate (getting through); and
- c. educate students for life and work in the 21st century (getting on).

Access Routes A range of access or entry routes to Higher Education (HE) studies should be in place. These include foundational / bridging / access programmes, Recognition of Prior Learning (RPL), and articulation possibilities between programmes and institutions.

Admissions Requirements Minimum admissions requirements for qualifications offered at HE institutions are legislated nationally (see section 3.2.3). Furthermore, HE institutions may set additional admission requirements for specific programmes.

Admissions Management This entails the policies, systems, procedures, structures and staffing that are in place to manage the admission, selection, placement and streaming of students. This includes student recruitment, processing applications, making admissions decisions and admissions offers, and integrating admissions offers with other services (e.g., financial aid, student housing) as well as the provision of student support.

Capping In some undergraduate and postgraduate programmes, the number of first-time entering applicants that are admitted has to be limited/capped in accordance with:

- a. The enrolment plan agreed to with the Department of Higher Education and Training (DHET).
- b. Available resources, infrastructure and staff capacity.
- c. Prescriptions of professional bodies.

Therefore, Senate and Council approve the capping of student numbers in specific programmes annually. In view of this, applicants are made aware that meeting the minimum admission requirements does not guarantee acceptance.

Enrolment Management Enrolment refers to the regulation and management of admissions. HE institutions develop enrolment plans and reach agreement with the DHET regarding enrolment targets, which includes equity targets. Institutions then institute procedures and processes to manage their enrolments according to the agreed targets.

Selection To meet enrolment targets, especially in programmes with a limited intake or with very specific admissions criteria (e.g., in some professional programmes), selection is undertaken. Selection needs to be done in a transparent way using published selection criteria and a process which is sensitive to achieving equity and redress.

Streaming Where a range of cognate programmes (e.g., Higher Certificate, Diploma, and Degree) are available in the discipline/career focus for which an applicant has applied, an applicant who is unsuccessful for one programme could be directed to a cognate programme for which she/he qualifies.

3. CONTEXT

Admission to study at University is informed and guided by:

- a. The *Constitution of the Republic of South Africa*, national policies and legislation pertaining to promoting equity of access and outcomes and admission requirements.
- b. Nelson Mandela University's Vision, Mission, Values, Strategic Priorities and Vision 2020 Strategic Planning Framework.
- c. Related University policies such as the *Recognition of Prior Learning Policy*, the *Readmission to Undergraduate Programmes Policy*, the *Teaching and Learning Policy*, *Policy for Academic Programme Articulation* and the *Master's and Doctoral Degrees Policy*.

3.1 Equity, Redress, Diversity and Access for Success

In the *Bill of Rights* contained in Chapter 2 of the *Constitution of the Republic of South Africa* (Act 108 of 1996), it is indicated in paragraph 29 (1) that all South Africans have the right "(a) to basic education ... and (b) to further education, which the state, through reasonable measures, must make progressively available and accessible". Building on this, in the *Education White Paper 3* (2007) one of the focus areas in higher education is identified as being "an inequitable distribution of access and opportunity for students and staff along lines of race, gender, class and geography" (p. 8)¹. Consequently, "equity and redress" is identified as being a fundamental principle in terms of providing opportunities for students to gain access to higher education studies and to be successful in such studies (*Education White Paper 3*, 2007). This is echoed in the *National Plan for Higher Education in South Africa* (2001)² in that it is indicated that higher education institutions need to "promote equity of access and fair chances of success to all who are seeking to realise their potential through higher education, while eradicating all forms of unfair discrimination and advancing redress for past inequalities" (p. 6). As reflected in this statement, the onus on Nelson Mandela University is to broaden access in a responsible way as students who are admitted should have a reasonable chance of succeeding in their studies and actualising their potential by providing a supportive, transformative learning environment.

¹ Department of Education (2007). *Education White Paper 3: A Programme for the Transformation of Higher Education*. Pretoria: Department of Education.

² Department of Education (2001). *National Plan for Higher Education*. Pretoria: Department of Education.

Furthermore, promoting social equity and redress enables Nelson Mandela University to enrol a diverse student body which creates a vibrant “diverse intellectual and social”³ learning environment that enriches the quality of the student learning experience, intellectual debate and “greater social cohesion in our deeply fractured society” (Badat, 2011, p. 7)³.

3.2 Legislative, Regulatory and Policy context

3.2.1 *White Paper for Post-school Education and Training*⁴

The South African post-school system requires expansion and diversification to meet the training and HR development needs of our society. Consequently, the *White Paper for Post-School Education and Training* was released by the Department of Higher Education and Training (DHET). Among the key objectives outlined in the White paper are to develop “a post-school system that can assist in building a fair, equitable, non-racial, non-sexists and democratic South Africa”, “a single, coordinated post-school education and training system”, and to achieve “expanded access, improved quality, and increased diversity of provision” (p. xi). The White Paper sets out a vision for a transformed post-school system which ... “will be more equitable, much expanded and more diverse” (p. xvii-xviii) with a view to contributing to economic growth and development as well as reducing poverty.

The Higher Education sector is one of the key role players in the post-school system in South Africa. As such, Nelson Mandela University needs to be responsive to broadening access and articulation opportunities to learners from the envisaged expanded post-school system as a means of contributing to our country’s development agenda.

3.2.2 *Higher Education Act:*

Section 37(4) of the *Higher Education Act*, Act 101 of 1997 as amended, makes provision for universities, with the approval of Council and Senate, to determine their admission requirements. These requirements must be transparent in that they must be published and must be sensitive to facilitating access for a diverse range of students that have the potential to succeed.

3.2.3 *Minimum admission requirements:*

Applicants must meet the minimum admissions requirements that have been legislated for all the programme types included in the Higher Education Qualifications Sub-Framework⁵6(HEQSF). Furthermore, minimum admission requirements for Higher Certificate, Diploma and Degree programmes based on different qualifications on Level 4 of the National Qualifications Framework (NQF)⁷ and for international/foreign school-leaving qualifications⁸ have been gazetted and must be complied with when admitting applicants to undergraduate programmes. In addition, Section 37(4) of the *Higher Education Act*, Act 101 of 1997 as amended, makes provision for universities, with the approval of Council and

Senate, to determine additional admission requirements (over and above the statutory minimum admission requirements) for each programme.

3.2.4 Enrolment Planning

Enrolment to universities is regulated through six-year enrolment plans (or as otherwise required) that universities submit and agree to with the Department of Higher Education and Training. University subsidies are partly linked to enrolment targets. In developing the enrolment targets a number of variables are used such as undergraduate and postgraduate numbers; enrolments per faculty and in scarce and critical skill areas, and enrolments by race, gender, class and geographical location. Furthermore, enrolment plans also take available resources and staff capacity into account. Enrolment planning is linked to admission in that the number of students enrolled in a year is shaped by the agreed upon enrolment plans.

3.2.5 Key strategies that focus on building capabilities of individuals and the South African economy and society

When determining the nature of the qualifications into which students are admitted and also Nelson Mandela University's enrolment plan, imperatives related to responsiveness to economic and societal needs in the following national and provincial strategic plans and strategies are *inter alia* taken into account:

- a. *National Development Plan Vision for 2030*⁹
- b. *National Research and Development Strategy (NRDS)*¹⁰
- c. *Ten-Year Innovation Plan (TYIP)*¹¹
- d. *Draft Strategy for Human Capital Development for Research, Innovation and Scholarship*¹²

- f. *Department of Science and Technology (DST) Strategic Plan: 2011-2016*¹⁴
- g. *Eastern Cape Provincial Industrial Development Strategy (March 2010)*¹⁵

3.3 Nelson Mandela University Context

Nelson Mandela University's approach to the admission of students is underpinned and guided by its Vision, Mission, Values and research themes and focus areas. The Vision 2020 Strategic Planning Framework positions Nelson Mandela University as a responsive and engaged institution that contributes to a sustainable future through *inter alia* providing access and equality of educational outcomes to a diverse range of students with the potential to succeed academically, and especially for those groups that were historically disadvantaged or continue to be disadvantaged and under-represented (e.g., rural students). In addition, in accordance with Nelson Mandela University's value of Excellence and linked to Vision 2020 strategic goals related to student access, emphasis is placed on attracting a greater number of academically talented students from diverse backgrounds to the University while still catering for students who are less well prepared, but talented academically.

The way in which the University promotes academic merit, equity of access and redress in its admission of students is outlined in the sections below.

4. POLICY STATEMENT

Subject to legislation and higher education policy (see section 3), and mindful of its vision, mission and values, Nelson Mandela University seeks to enrol students who have the potential to succeed at the higher education level. Furthermore, Nelson Mandela University actively seeks to enrol a student body that reflects the broad diversity of cultural, linguistic, ethnic, socio-economic and educational backgrounds, locally, regionally and nationally. Nelson Mandela University further seeks to enrich the diversity of its student body through a process of internationalisation by drawing students from other African countries, as well as from the wider international community.

Nelson Mandela University is committed to both attracting increasing numbers of academically talented students and broadening access to its academic and research programmes through a variety of strategies by increasing the participation rates of students from historically disadvantaged and non-traditional educational backgrounds, from working class and rural backgrounds, of women, and of students in under-represented fields of study. Nelson Mandela University also provides access to students with disabilities¹⁶ based on academic merit and within the context of the university's ability to make reasonable provision for such students.

Nelson Mandela University is mindful that access to education is a basic human right enshrined in the *Constitution* (see section 3.1). However, this has to be balanced by the availability of resources to ensure that Nelson Mandela University can provide the students that it enrolls with the necessary teaching, learning and research resources so that they are provided with a quality learning experience and to enable them to successfully complete their studies. For this reason, enrolments in some programmes may be limited (see section 5.6).

To guide the implementation of this policy statement, eleven underpinning principles have been developed.

5. UNDERPINNING PRINCIPLES

The following principles¹⁷ underpin the implementation of Nelson Mandela University's *Admissions Policy*:

5.1 ***Procedures for the recruitment of students to Nelson Mandela University are clear and explicit and are implemented consistently and professionally.***

Ways in which effect is given to this principle include targeted marketing and recruitment strategies, and the availability of scholarships, bursaries and merit awards to attract qualifying applicants. For undergraduate admissions, while targeted marketing and recruitment strategies are largely aimed at Grades 10 to 12, for under-represented groups (e.g., rural learners) such strategies are implemented earlier, the admissions process is unpacked, and assistance is provided to complete and submit application forms.

¹⁶ Note: The University is working progressively towards enhancing access for students with disabilities. Disabled applicants are offered a place if they meet the University's admission requirements and whatever additional requirements that may be necessary to ensure that reasonable accommodation can be made. The nature and extent of the individual's disability as well as the learner resources available to support the disabled student at Nelson Mandela University are considered by the UADS in collaboration with the relevant programme coordinator/HoD to determine whether Nelson Mandela University is able to offer reasonable accommodation or not. Such decisions are made on an individual basis.

¹⁷ These principles have been significantly informed by the Quality Assurance Agency for Higher Education (QAA) (2006), Code of Practice for the Assurance of Academic Quality and standards in Higher Education. Section 10: Admissions to Higher Education. Can be accessed from www.qaa.ac.uk

5.2 Nelson Mandela University's promotional materials are accurate, relevant, current, and accessible, and provide information that will enable applicants to make informed decisions about their study options.

In terms of equity and redress, ways in which this principle is demonstrated include having promotional materials available in print and electronic forms, school visits and career fairs/exhibitions, advertisements, and through subject choice workshops and career guidance for school learners (some of which is achieved through empowering Life Orientation educators) and career counselling for students. Where a minimum number of student enrolments are required for a programme to be presented, such information is made known in advance with clear closing dates for the submission of applications.

5.3 To broaden access, a range of access and articulation routes are available and information on them is provided to applicants.

This principle is demonstrated through the availability of preparatory, bridging and articulation programmes some of which may be offered by Technical and Vocational Education and Training (TVET) Colleges, in incubator schools, as short learning or research capacity building programmes, as Summer/Winter Schools, or as extended programmes. As a comprehensive university, access to Nelson Mandela University is enhanced by students who enter qualifications at a lower HEQSF level being able to advance to different programme types and/or higher level qualifications through the application of articulation rules¹⁸ between programmes. Furthermore, mature and non-traditional students can obtain information about and gain access to studies through Nelson Mandela University's recognition of prior learning processes¹⁹.

5.4 To promote equity of access, admissions criteria and procedures are sensitive to the different starting points of applicants and seek to include those with the potential to succeed.

Effect is given to this principle by:

- a. The admissions requirements to the various programmes offered by the University consisting of both the statutory admission requirements²⁰ as well as additional requirements for admission to specific programmes approved by Senate²¹.
- b. Encouraging applications from applicants who meet both the statutory and specific admissions requirements. Nonetheless, the University also makes provision for various forms of alternative access/admission routes into its academic programmes. Alternative admissions routes are provided through, interviews, portfolio presentations, submission of a research proposal, the use of Senate's Discretion admission²², the application of a policy and procedures for the recognition of prior learning¹¹, and programme articulation agreements/rules.
- c. In addition, should applicants not meet the requirements to be admitted to a certain programme type, they could be streamed²³ into a related programme type, if available.

¹⁸ These are contained in the relevant programme rules in the *Prospectus* of each faculty. Articulation rules are guided by progression and articulation stipulations in the HEQSF.

¹⁹ Refer to Nelson Mandela University's *Recognition of Prior Learning Policy*. (D/365/08)

²⁰ See section 3.2.3

²¹ See the relevant sections on general and specific admission requirements to programmes and modules in the relevant faculty *Prospectus*; or the *General Information and Admission Requirements for Undergraduate Programmes*; or the *General Information and Admission Requirements for Postgraduate Programmes*.

²² Senate's discretionary admission, which is granted to an applicant who has not met the minimum requirements for degree/diploma studies but who demonstrates in an assessment process approved by Senate that he/she is suitable for degree/diploma studies or has completed a recognized Access course or a Foundation programme. (<http://www.hesa-enrol.ac.za/mb/faq.htm>).

²³ This is based on school and career interests in the case of undergraduate programmes and on previous academic performance and career interests for postgraduate students.

- d. In terms of equity and redress, Nelson Mandela University actively markets its different undergraduate access and admission routes among schools, Technical Vocational Education and Training (TVET) Colleges, Community Colleges, parents, learners and Life Orientation educators. In terms of the postgraduate access and admission routes, these are marketed to students at Nelson Mandela University, at other universities and the public through various marketing campaigns.

5.5 *Transparent, research-informed admission requirements are published and applied consistently during the admissions decision-making process.*

Nelson Mandela University's admission requirements:

- a. Comply with legislative and regulatory requirements.
- b. Are informed by research and are as appropriate and valid as possible.
- c. Are transparent and sensitive to both the need to broaden access as well as to admit a diverse range of students with the potential to succeed.
- d. Are formally approved before they can be applied (see Appendix A and B for a flowchart of the approval process for undergraduate and postgraduate qualifications respectively).
- e. Are published annually, internally and externally.

The appropriateness of the current undergraduate admissions requirements are to be reviewed at an institutional level every five years.

To enhance the consistency and accuracy of admissions decisions, capacity building opportunities are provided to staff involved in the admissions process. In addition, regular audits and reviews are conducted to ensure that admissions requirements are applied consistently (see also section 5.10).

5.6 *While Nelson Mandela University's approach to admissions is one of inclusivity, to meet equity-based enrolment targets and where places in programmes are capped/limited, selection mechanisms are made public. As there are normally more applications than places available, entry to these programmes may be competitive and for this reason the selection process is conducted in a confidential way*

Nelson Mandela University's admission requirements and processes are designed to include a diverse range of students (see section 4, 5.3 and 5.4). Nonetheless, as indicated in section 3.2.4, Nelson Mandela University's enrolment plan contains equity-based enrolment targets, which are responsive to national strategic priorities. Furthermore, as indicated in section 2 and in 3.2.4, in some undergraduate and postgraduate programmes, the number of first-time entering applicants that are admitted is capped/limited. Consequently, where certain groups are under-represented in a programme and where the number of students to be admitted to a programme is capped, the University applies selection mechanisms when making admissions offers in these programmes. When determining selection mechanisms care is taken that they facilitate equity and redress rather than enforcing past/present privilege or promoting elitism and that the University's internationalisation strategy is taken into account. The selection mechanisms must be approved by the Faculty Management Committee, reported to the Admissions section, and be published. In this way applicants are made aware that meeting the minimum admission requirements does not guarantee acceptance whilst being informed of the transparent selection mechanisms and that the process is conducted in a confidential way, with due regard to the applicant's right to request reasons for a rejection. Selection mechanisms should be implemented in such a way that they expedite rather than delay applicants being informed of the outcome of their application and that selection decisions are appropriately recorded.

5.7 When deciding on the admission of students to master's and doctoral studies, the admissions requirements are considered together with available resources and the alignment of the applicant's proposed research with institutional and faculty research themes

While Nelson Mandela University is committed to enrolling increasing numbers of students in master's and doctoral programmes, care is also taken to ensure that the academic department/faculty has the necessary supervisory capacity and research and teaching expertise available to guide the student through the research and learning process to successfully complete the qualification. Furthermore, consideration also needs to be given to the availability of appropriate research laboratories, where relevant, and research funding. Nelson Mandela University's research agenda is focused on key institutional and faculty research themes/areas and alignment of the applicant's research focus with these themes is preferable. Consequently, other than meeting the admission requirements, consideration is given to available supervisory, infrastructure and funding resources as well as alignment of the applicant's proposed research focus with the institutional/faculty research themes before an admissions offer is made.

5.8 The admissions processes is conducted efficiently, consistently, fairly, professionally and courteously according to fully documented operational procedures that are readily accessible to all those involved in the admissions process, both within and without the institution, including applicants.

The University's admissions procedures are designed to be simple, efficient and fair and staff members discharge their duties courteously, professionally, ethically and as consistently as possible during the recruitment and admissions process. The procedures are documented in *Procedures for Implementing Nelson Mandela University's Admission Policy for Undergraduate Programmes* and in the *Master's and Doctoral Degrees Policy*²⁴. Flowcharts of the undergraduate, honours, and master's and doctoral admissions processes are provided in Appendix C, D and E respectively. More detail is also provided in section 7.

To ensure efficiency, in instances where final results are not yet available, pre-final results for the school-leaving qualification or the prerequisite prior higher education qualification are used when making an initial admissions offer. Prior to registration, the onus is on the applicant to furnish the university with all the necessary documentation confirming their final results and attainment of a school-leaving qualification or the prerequisite prior higher education qualification.

Procedures are in place in Academic Administration for responding to applicants' queries about an admission decision, complaints about the admissions process and to ensure that all staff members involved with admissions are familiar with the policies and procedures. The procedures are documented in *Procedures for Implementing Nelson Mandela University's Admission Policy for Undergraduate Programmes* and in *Master's and Doctoral Degrees Policy*.

5.9 Procedures are in place for informing applicants and staff on what grounds appeals against the outcome of an admissions decision may be considered and how applicants' appeals are considered and responded to.

Procedures are in place in Academic Administration for informing applicants on what grounds and how they can appeal an admissions decision. An applicant must appeal in writing. Appeals are considered by an individual/committee involving staff not directly involved in the original decision. The Admissions Office communicates the outcome of the appeal to the

²⁴The *Honours Degree Policy*, which will include a section on the admissions process, is being developed. In the interim, the principles outlined in the **Admissions Policy** and the flowchart of the admissions process in Appendix D should be used.

applicant. Specific detail on appeal processes is contained in the *Procedures for Implementing Nelson Mandela University's Admission Policy for Undergraduate Programmes* and in *Master's and Doctoral Degrees Policy*. In the case of undergraduate students applying to transfer to a programme in another faculty, the appeal will be considered by the Admissions Committee. In the case of Honours applications, the appeal is dealt with by the Faculty Management Committee (FMC).

5.10 Successful applicants are provided with relevant information about their studies and how to access and optimise the learning support available.

Effect is given to this principle by:

- a. Informing prospective students at the time an initial admissions offer is made of the obligations placed on them (e.g., that they must inform Admissions of their final school-leaving or course marks for a prior higher education qualification).
- b. Informing prospective students timeously of any significant changes to a programme made between the time an initial admissions offer is made and registration is concluded, and advising them on its implications and if relevant, of the options available in these circumstances.
- c. Providing successful applicants with information about the registration and orientation of new students and the range of support and holistic development opportunities that the University provides.

5.11 The integrity of admissions information, systems and processes is ensured by implementing quality control procedures.

Examples how this principle is demonstrated include:

- a. Quality control procedures that are in place during the admissions process (e.g., computer system validation reports).
- b. After each admissions cycle, conducting regular audits and reviews of student admissions, selection mechanisms, the admissions process and the data that have been captured, and quality assurance interventions instituted by the University.
- c. The role played by the Admissions Committee and the Postgraduate Studies Committee in reviewing the admission process and decision-making standards.

6. APPLICANTS' RIGHTS AND RESPONSIBILITIES

Throughout the admissions process outlined in section 5 and spelt out in more detail in the *Procedures for Implementing Nelson Mandela University's Admission Policy for Undergraduate Programmes* and in the *Master's and Doctoral Degrees Policy*, **the applicant has the right to expect that:**

- Nelson Mandela University will apply the published admissions principles, criteria and procedures.
- Their application will be processed in a careful and fair way based on principles that are consistently applied during an admissions cycle.
- They will not be discriminated against based on race, ethnicity, nationality, gender, sexuality, religion, disability or age.
- They will receive the outcome of their application within a reasonable time-frame.
- Should their application be unsuccessful, they have a right to seek information about why the application was unsuccessful and appeal the decision.
- Should their application to their first-choice programme be unsuccessful, they could request to be considered for an alternative programme.
- Where their application is successful, that Nelson Mandela University will provide them with information regarding the submission of final marks and registration requirements.

Applicants to Nelson Mandela University also have certain **responsibilities**, which, if they are met, will ensure that applications are processed and admissions decisions are reached as soon as possible. Applicants need to **accept responsibility to**:

- Read the instructions on the Application Form carefully before completing and submitting their application.
- Complete the Application Form honestly and accurately.
- Provide complete and verified supporting documentation with the application where requested²⁵.
- Where previous post-school studies have been undertaken, complete academic records/transcripts must be submitted along with a statement of good conduct.
- Accept the conditions as set out in the *Declaration by applicant* in the Application Form.

7. EQUITY OF ACCESS AND SUCCESS

Nelson Mandela University's commitment to promoting equity of access and enrolling a diverse student body is evident both prior to and beyond the admissions process. To contribute to the preparation of high school learners for university studies, Nelson Mandela University partners with schools to provide summer and winter schools in gateway subjects, enhance mastering Mathematics and Science in Grades 10 to 12, provide educator in-service training, career fairs, and school visits, for example.

As Nelson Mandela University is working progressively towards enhancing access for students with disabilities, applicants with a disability are encouraged to disclose this on their application form. This ensures that in addition to considering the admission requirements to the programme applied for, additional requirements that may be necessary to ensure that reasonable accommodation can be made can also be considered. This enables the University to evaluate the nature of the reasonable accommodations that will be needed to support a disabled applicant's learning and whether such accommodations can be made. Failure on the part of applicants to disclose a disability may impact on the University's ability to make reasonable accommodations for them.

Once admitted, students are provided with effective support and capacity-building opportunities to enable them to cope with the demands of their academic programmes and to prepare them for the demands of their work and life²⁶. This support may include developmentally-focused assessment of student needs; academic development and co-curricular programmes; foundational/fundamental modules and resources; research capacity development; writing development and guidance on upholding academic integrity in all scholarly activities; accessing language editing; access to computers and the Internet; library and information services; peer-facilitated learning in small groups; counselling and career guidance; and effective teaching and learning practices that *inter alia* facilitate epistemological access.

Nelson Mandela University also assists students, who have the potential to succeed academically, to access research funding and financial aid from bursaries and loans that are made available by Nelson Mandela University as well as by other sources. By means of the strategies outlined in this section, Nelson Mandela University endeavours to create a supportive learning environment so that students that are admitted have the opportunity to achieve to their potential and complete their programmes successfully. As students need to take co-responsibility for their learning experience, they need to exercise responsibility to make use of the support and development opportunities that the University provides.

²⁵ An applicant who submits a document in support of their application, which contains a false statement, is altered or forged, will be prosecuted both criminally as well as in terms of the Student Disciplinary Code. The findings of the Disciplinary Committee will be communicated to all tertiary institutions in the country.

²⁶ Refer to *Teaching and Learning Policy* for more information in this regard.

8. IMPLEMENTATION OF ADMISSIONS POLICY

As indicated in section 5.7, in reaching a decision on admission, the University makes use of an admissions process that is fair and transparent.

Detailed admissions procedures²⁷ for implementing the *Admissions Policy* for undergraduate and postgraduate admissions are documented separately. Academic Administration is responsible for making these documents accessible to applicants and all those involved in the admissions process.

In implementing the *Admissions Policy* cognisance is also taken of general and faculty specific rules and related policies²⁸.

The following role players are responsible for effecting various aspects of the admissions process:

a. Executive Deans

- i. Directing mechanisms for broadening access to programmes in the faculty.
- ii. Directing enrolment planning in the faculty as well as equity-based admissions target setting.
- iii. Directing the setting and approval of admission requirements.
- iv. Directing the mechanisms for selecting applicants in limited intake/capped programmes.
- v. In exceptional circumstances making a decision to admit a meritorious late applicant.
- vi. In exceptional circumstances, in consultation with the HoD/DoS, adjusting the approved cap for a programme during an intake.

b. HoDs/Programme Coordinators/Heads of Programmes

- i. Proposing the overall admissions requirements and subject requirements (where relevant) for a programme and submitting them for approval to relevant committees.
- ii. Proposing admission requirements stipulated by professional or external accrediting bodies and submitting them for approval to relevant committees.
- iii. Proposing alternative selection mechanisms, where relevant.
- iv. Identifying programmes where targeted groups are under-represented and/or where enrolment must be capped and proposing selection mechanisms in these programmes to the Faculty Management Committee.
- v. Making admissions decisions for postgraduate applicants and for undergraduate applicants with further or additional education and training or for transferring students.

c. Admissions Officers

- i. Making direct entry admissions decisions to undergraduate programmes based on:
 1. Statutory requirements
 2. Composite point score
 3. Subject requirements

²⁷ A Central Applications System (CAS) is being developed nationally. The CAS will receive all applications for undergraduate university study and distribute them to the universities that applicants indicate. Universities will still be responsible for making admissions decisions. CAS will be phased in over the next decade and currently does not impact on Nelson Mandela University's undergraduate admissions procedures.

²⁸ *Inter alia* the *Recognition of Prior Learning Policy* and the *Readmission to Undergraduate Programmes Policy*. The *Readmission Policy* is applied when readmitting and registering or refusing readmission to returning undergraduate students each year.

- ii. Such decisions may also require implementing selection mechanisms approved by the Faculty Management Committee where the new intake into a programme is capped or where the number of admissions of applicants from under-represented groups needs to reach a specific proportion.
- iii. Consulting with HoDs and Programme Coordinators regarding the application of admissions criteria, particularly in difficult cases.
- iv. Regularly communicating with HoDs and Programme Coordinators regarding the number of applicants accepted, the requirements of professional or external accrediting bodies, and regarding applicants with further studies and transferring students.
- v. Ensuring that quality control measures are in place and are adhered to for the purposes of data and decision-making integrity.

d. Departmental Selection Panels

Informed by the principles underpinning the University's approach to admissions outlined in section 5, these panels are responsible for:

- i. Proposing and gaining approval for the selection process to be used.
- ii. Determining and gaining approval for the composition of selection panel and the frequency of the panel's meeting dates.
- iii. Putting mechanisms in place to ensure that the decision-making process is fair and transparent.
- iv. Communicating the admissions decisions to the Admissions Office.

e. Faculty Management Committees

The Faculty Management Committees are responsible for:

- i. Instituting enrolment planning.
- ii. Determining the number of students that can be accommodated in each programme in the faculty, on the basis of which caps are proposed to the Executive Committee of Senate, where appropriate.
- iii. Approving selection criteria, mechanisms and processes to be used in programmes where selection is required.
- iv. Where appropriate, approving the composition of a departmental selection panel and the date by when the selection process will be concluded.
- v. Using data provided from Strategic Intelligence and Data Analytics (SIDA), monitor the number of students admitted throughout the admissions process.
- vi. Dealing with admissions appeals where the admissions decision has been made by a HoD/DoS.

f. Mandela International Office

- i. Receive applications for international applicants
- ii. For undergraduate applications, the Mandela International Office works in collaboration with Admissions to effect admissions decisions.
- iii. For postgraduate applications, the Mandela International Office refers the application to the relevant HoD/DoS for a decision.

g. Universal Accessibility & Disability Services (UADS)

The UADS is responsible for:

9. MONITORING IMPLEMENTATION OF, REVIEWING AND UPDATING THE ADMISSIONS POLICY

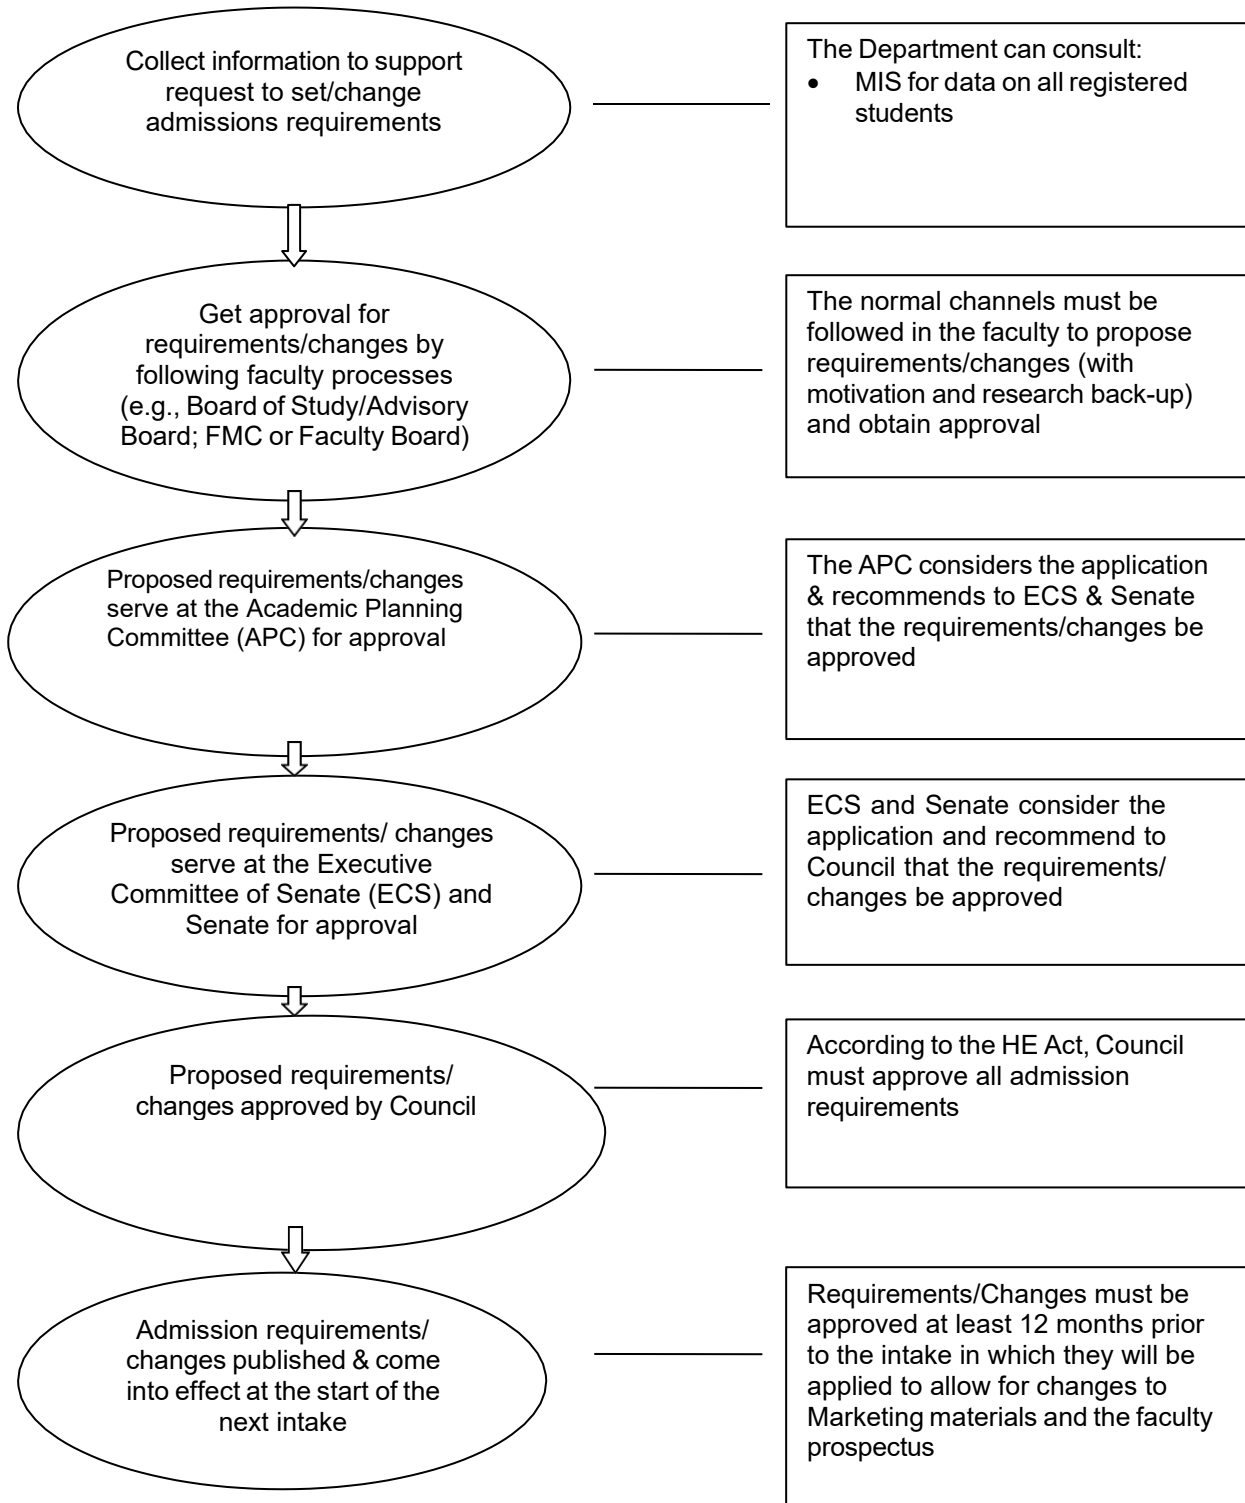

Nelson Mandela University's Senate has established an Admissions Committee and a Postgraduate Studies committee *inter alia* to:

- a. monitor the admissions process and the consistency of admissions decision-making for undergraduate and postgraduate admissions respectively;

ACADEMIC PROGRESSION AND READMISSION TO UNDERGRADUATE PROGRAMMES**1. PURPOSE OF THE POLICY**

Section 37(4) of the Higher Education Act, Act 101 of 1997 as amended, stipulates as follows:

(4) Subject to this Act, the Council may, with the approval of senate:

- (a) determine the entrance requirements in respect of particular higher education programmes;*
- (b) determine the number of students who may be admitted for a particular higher education programme and the manner of their selection;*
- (c) determine the minimum requirements for readmission to study at the public higher education institution concerned; and*
- (d) refuse readmission to a student who fails to satisfy such minimum requirements for readmission.*

The purpose of this policy is to indicate both the process by which Senate determines readmission requirements and who has the authority to refuse readmission to a student who fails to satisfy such minimum requirements for admission. The policy furthermore addresses the importance of reviewing student progress, where a student can obtain information on readmission requirements, the support afforded to students with conditional readmission, and the process to be followed to appeal a readmission refusal decision.

2. POLICY**2.1 Principles**

- 2.1.1 In accordance with sound educational practices related to enhancing academic success, procedures need to be in place to regularly review the academic progress of students and to raise students' awareness about initiatives and resources to enhance their success.
- 2.1.2 Where students are progressing satisfactorily, faculties should provide positive feedback and encourage them to continue to work hard and access all the available student success initiatives and resources.
- 2.1.3 Where students are not progressing satisfactorily, faculties must alert students to this and put mechanisms in place to connect them to student success services, initiatives and resources that can assist them.
- 2.1.4 Students also need to monitor their progress and actively seek out opportunities and resources that are provided by the University to enhance their success.
- 2.1.5 The LT Collab is responsible for providing a range of student success services, initiatives, and resources and to actively market these to students.
- 2.1.6 At the end of each academic year, students either meet the readmission requirements for the next year of study, or they do not and are conditionally readmitted.
- 2.1.7 Readmission refusal will only apply when students reach the maximum years of study for the programme in which they were enrolled but have still not obtained all the required credits.

2.2 Review of academic progress

Nelson Mandela University upholds academic excellence in its endeavour to equip students with transformative and sustainable graduate attributes. Among the principles underpinning learning at the University³⁰ is that lecturers have high expectations that students will succeed in their studies. Academic progression can be viewed as persistence and motivation to achieve a mark of 50% or more in the modules enrolled for. It is the responsibility of lecturers, professional academic support staff, and students to co-create learning experiences that promote excellence and foster student success.

²⁹ Teaching and Learning Policy <https://my.mandela.ac.za/irc/305.01.pdf>

Furthermore, in accordance with sound educational practices related to enhancing academic success, procedures need to be in place to regularly review the academic progress of students. Monitoring students' academic performance, psycho-social status and possible aggravating factors on an ongoing basis is a key strategy to enhance student success and throughput. **Each Faculty Board must thus approve a process to review the performance of students at a module and/or programme level in their Faculty, submit the process to the Learning and Teaching Committee for approval, and monitor the implementation of the review process.**

It is foreseen that for faculties to effectively manage the review of student progress, certain administrative processes might have to be collaboratively developed by the faculties and Faculty Administration. The review must be done regularly (so that lecturers/programme coordinators/Heads of Departments are better informed of the progress of students, and they could become aware of any personal, academic or other circumstances that might be negatively impacting on the progress of students). The provision of timely feedback on their progress to students will facilitate early detection of academic performance challenges and improvement mechanisms can be activated. RADAR is available in all faculties to facilitate the tracking of student progress and linking to targeted interventions. Where specific student needs and problems are identified, students should be referred to resources and professional services that can assist them (e.g., referral to online student success resources; Supplemental Instruction; Emthonjeni Student Wellness; Financial Aid; Student Health Services; Universal Accessibility and Disability Services). It is the responsibility of the student to contact the support service that they have been referred to and to participate in the various development and support activities and online resources that could assist them to succeed academically. Students should keep a record of their engagement in support activities and notify the referring agent or lecturer about this if requested. This should be done with great care so that the student's privacy and confidentiality are upheld.

2.3 Minimum Requirements for Readmission

Minimum requirements for readmission must be determined by faculties, submitted for approval to Senate and published in the faculty prospectus. **It is thus the responsibility of each Faculty Board to ensure that:**

- 2.3.1 The general principles for determining readmission rules contained in Appendix A are used as a guideline when determining the minimum requirements for undergraduate programmes in the faculty.
- 2.3.2 Readmission requirements for each programme (for all year levels) are determined, submitted for approval to Senate via the Academic Programme Committee, and published in the faculty prospectus. Faculty Boards may decide to determine generic readmission requirements for all or groups of programmes in the faculty instead of determining the requirements per programme. Generic faculty readmission requirements must also be submitted for approval to Senate via the Academic Programme Committee and must be published in the faculty prospectus.
- 2.3.3 The attention of students is drawn to the readmission requirements during the registration process. This is especially important if a student's academic progress is unsatisfactory and conditions are placed on his/her readmission. In this instance, the Faculty Management Committee (FMC) in collaboration with Faculty Administration must determine the process to be followed to record the conditions for readmission on the student record and to notify the student of the conditions.
- 2.3.4 Conditions for Readmission could include combinations of:
 - a. Referral to an academic advisor, student success coach, and/or student wellness counsellor.
 - b. Prescribing the modules that a student can enrol for in a semester/year
 - c. Prescribing the number of modules that must be passed in a semester/year
 - d. Attendance of tutorials and/or SI sessions
 - e. Class attendance
 - f. Sessions with an academic literacies (writing) consultant
 - g. Working through online student success resources

2.3.5 A Structured Student-centred Programme to Enhance Academic Progress

- a. At the end of each academic year, student progress is reviewed. Students who are conditionally readmitted, participate in a structured programme to Enhance Academic Progress (EAP). Participation is not optional. The EAP programme is tiered relative to the extent to which academic progress goals have not been met. The programme runs throughout the academic year and includes the guided development and implementation of a success plan by the student and ongoing monitoring of progress and refinement of the plan to link students to targeted support and development opportunities.
- b. In drawing up a success plan, a student wellness counsellor, success coach or academic advisor could guide the student to consider a change of programme.
- c. When the maximum period of study for a qualification is reached, the student will only be readmitted under special circumstances (e.g. when the student, with due consideration of his/her academic record, is likely to complete his/her qualification by the end of the year). However, faculties will also consider whether the student participated in the EAP programme in the years when they were conditionally readmitted. If the student did not substantially participate in the EAP, this could count against giving them a further opportunity to complete the qualification.

2.4 Process to determine if Readmission Requirements Have Been Met and to Refuse Readmission

The following process must be followed when reaching a decision whether the readmission requirements have been met:

- 2.4.1 The performance of all students registered for a programme in a faculty must be reviewed against the readmission requirements. Unless the Faculty Board decides otherwise, this review will normally take place at the end of an academic year.
- 2.4.2 Students who have not yet reached the maximum years of study for their programme must be notified by faculty administration if they have been readmitted as they met the requirements or if they have been conditionally readmitted and what the conditions are.
- 2.4.3 The Head of Department/Director of School/Executive Dean has the delegated authority to refuse the readmission of students who have reached the maximum years of study for their qualification but did not manage to complete the qualification. The Head of Department/Director of School in collaboration with faculty administration must convey the fact that readmission has been refused and the reasons for this must be attached to the Student Record. The Head of Department/Director of School must be able to provide the detailed information that informed the decision, should the decision to refuse readmission be appealed.
- 2.4.4 A student who has been refused readmission can appeal.

2.5 Appeal procedure

The student has the right to appeal against a decision to refuse readmission. The appeal will normally be handled by the Faculty Management Committee³¹, unless the Faculty Board determines that another faculty committee must consider the appeal. In the latter instance, the Faculty Board must determine the composition of the committee. The decision reached by the appropriate faculty committee regarding the readmission appeal will be final and no further appeal will be permitted.

The process followed to apply for, consider and deal with a readmission appeal is as follows:

- 2.5.1 A student must submit their appeal in writing on a prescribed readmission appeal form, with full motivation and supporting documentation, to the Faculty Administration by either the last day of the re-examination period or within five (5) working days of receiving notification of readmission refusal, whichever date is the latest. The Faculty Administration must forward

³⁰ It is good practice to include the faculty student academic rep on the committee hearing the appeal

the appeal, together with a copy of the student's study record and the letter in which the student was informed that he/she was being refused readmission, to the Faculty Management Committee.

- 2.5.2 The Faculty Management Committee or the committee identified by the faculty to do so will then handle the appeal where consideration could be given to factors such as:
- (a) The student's academic record and whether they are close to completing all the modules in the qualification.
 - (b) Whether the student participated in programmes and activities to enhance their academic progress.
 - (c) Whether there are any special circumstances related to the student's unsatisfactory academic performance that should be taken into account and which could mitigate against refusing readmission.
- 2.5.3 A statement of the outcome of the appeal and a motivation for the decision reached must be communicated to and placed on the student's record by the Faculty Administration.

3. APPLICATION OF THIS POLICY AND MONITORING OF IMPLEMENTATION

This policy is applicable to all students, academic lecturing staff and relevant administrative staff.

The Executive Dean of each Faculty must annually submit a report to the Learning and Teaching Committee on:

- a. the number of decisions to refuse readmission, and on the appeals lodged and how these were dealt with,
- b. the number of conditional readmissions and the intervention mechanisms put in place.

The LT Collab must annually submit a report to the Learning and Teaching Committee on the structured Enhancing Academic Progress programme, the range of student success resources, interventions and activities available and the extent to which students are accessing them.

The Learning and Teaching Committee, will be responsible to review the application of the policy across the faculties, to report to the Executive Committee of Senate on readmissions matters as needed, and to recommend revisions to the policy when necessary.

APPENDIX A
GENERAL PRINCIPLES FOR DETERMINING READMISSION RULES FOR UNDERGRADUATE PROGRAMMES (Excluding Honours & BTech)

1. General Principles

The following general principles will apply:

- a) Faculties should consider not only a level (i.e., number of credits accumulated per year of registration), but also a range in which conditional readmission will apply;
- b) Faculties should have the discretion to determine the minimum credit value for readmission to a particular programme;
- c) Where the maximum study period has been reached, but a student is close to graduating in that he/she only requires a few credits to graduate, the Faculty should have clear criteria in place to apply discretion to readmit the student;
- d) Faculties should have the discretion to deal with possible exceptions.

2. Maximum period of study

2.1. Full time: The following maximum periods of study are allowed for full-time students:

Programme Credits	Minimum Period of Study	Maximum Period of Study
120 credits	1 year	2 years
360+ credits	3 years	5 years
480+ credits	4 years	6 years

2.2. Full time Extended Programmes: The following maximum periods of study are allowed for full-time students in extended programmes:

Programme Credits	Minimum Period of Study	Maximum Period of Study
120 credits	2 years	3 years
360+ credits	4 years	6 years
480+ credits	5 years	7 years

2.3. Part Time: The following maximum periods of study are used as a guideline for part-time students taking due cognisance of personal circumstances:

Programme Credits	Minimum Period of Study	Maximum Period of Study
120 credits	2 years	3 years
360+ credits	4 years	7 years
480+ credits	6 years	8 years

3. Maximum period of study exceeded

In the event that a student exceeds the maximum allowable period of study, the student will only be readmitted under special circumstances (e.g. when the student, with due consideration of his/her academic record, is likely to complete his/her qualification by the end of the year).

4. Progress-based readmission criteria in table format

G1.14.1	In exceptional circumstances re-assessments may not be available for specific modules as approved by ECS and published in the Faculty Prospectus.
G1.15	Last Outstanding Assessment (Examinable Modules)

G1.15.1	A final year student or a student registered for an undergraduate one-year qualification or programme who after the completion of the normal semester final assessments, needs to pass only one outstanding module to complete a qualification or programme, and has not qualified for a final re-assessment in that module, shall nevertheless be granted a final re-assessment in that module.
G1.15.2	For the consistent implementation of this rule, the following definitions and sub-rules must be applied:
G1.15.2.1	A final year student is a registered student who has qualified to be categorised as such by virtue of the student's academic progress up to the end of the previous academic year.
G1.15.2.2	One outstanding module refers to one year module, one semester module or the equivalent of one semester module (for example two term modules, which may or may not be from the same discipline), or one term module for which the student has been registered in the current academic year.
<u>G1.15.3</u>	The rule must be applied separately and independently in respect of the final results for the mid-year and end-of-year assessment periods:
G1.15.3.1	After the final results are available for the mid-year assessment period: it must be assumed that the student will pass all year, second semester and term 3 and 4 modules he/she has registered for, as well as all final re-assessments during the mid-year re-assessment period. A student who has not registered for their outstanding second semester module(s), should there be any, shall not be eligible for a last outstanding assessment after the mid-year re-assessment period.
G1.15.3.2	After the final results are available for the end-of-year assessment period: the student must have passed all first semester and term 1 and 2 modules.
G1.15.3.3	If the only outstanding module, as defined in G1.15.3.2 above, is a module for which the student did not qualify for admission to the assessment in terms of rule G1.10.4 , a last outstanding re-assessment shall nevertheless be granted for that module even if the subminimum in the examination was not met. However, this sub-rule will not apply if the non-admission to the assessment was the result of non-compliance with a sub-minimum requirement relating to a compulsory laboratory or assignment component of the class mark.
G1.15.3.4	A last outstanding assessment does not constitute a separate new final assessment and is therefore subject to rule G1.12.4 .
G1.15.3.5	A student shall complete a last outstanding assessment in the period when final re-assessments are written.
G1.15.3.6	This rule shall not apply if a student has failed a final re-assessment or a last outstanding assessment in that module. A final re-assessment shall not be granted on a last outstanding assessment.
G1.15.3.7	If a student fails to complete a last outstanding assessment, the opportunity shall be forfeited, unless deemed otherwise by the Faculty Management Committee. An appeal to the Faculty Management Committee must follow the procedure outlined in rule G1.11 .
G1.15.3.8	A student registered for occasional studies in terms of rule G1.4.16 shall not qualify for a last outstanding assessment.
G1.15.3.9	A final re-assessment does not constitute a separate new assessment. The final assessment criteria or ratios used in the original calculation of the final mark shall also apply to the final re-assessment, but the final mark thus obtained may not exceed 50%.

G1.15.3.10	Under normal circumstance a last outstanding assessment is not applicable for continuous assessment modules unless recommended by the respective Head of Department. The final mark obtained for the end of module last outstanding assessment may not exceed 50%.

ADDENDUM**STUDENT DISCIPLINARY CODE: GUIDELINE ON SANCTION:**

- ▶ The Disciplinary Committee shall impose a sanction having taken into account all relevant factors including (but not limited to) the offence, the interests of the University and the personal circumstances of the Respondent.
- ▶ The sanctions suggested in the Code are to be regarded as maximum sanctions.
- ▶ The Misconduct Offences listed in the Code is not exhaustive and a Respondent may be charged with other, unlisted misconduct.
- ▶ Proportionality

The Sanction in each case must demonstrate a considered and proportionate balance between:

- The seriousness of the misconduct
 - The interests of the University
 - The personal circumstances of the Respondent
 - The Sanction imposed in similar cases in the past (precedent)
 - The mitigating and aggravating factors in the case
- ▶ Before finalising its decision on sanction, the Committee should always satisfy itself that the sanction, or combination of sanctions, it has decided to impose is both:
 - Sufficient; and
 - No more than is necessary to achieve the purpose of sanction.
 - ▶ Reasons
- The Committee must give reasons for its decisions on sanction. The reasons should clearly explain:
- The interests and factors the Committee took into account in arriving at its decision;
 - The weight it attached to those interests and factors;
 - How the balancing of those interests and factors led the Committee to its decision.
- ▶ Suspension of a sanction for a specified period means that the sanction will only take effect if the student respondent commits a similar offence during the specified period.
