

SOUTH AFRICAN VACCINE FAST FACTS

WHAT IS A VACCINE?

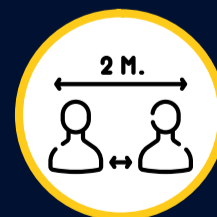

- A vaccine is a medicine that helps the body fight infections and illnesses.
- Vaccines have stopped millions of children from getting sick and dying from diseases like measles, polio and mumps.
- Many adults have had vaccines against diseases like the flu and tetanus.
- Most vaccines are given by injection.

SOUTH AFRICAN VACCINE FAST FACTS

HOW DOES A VACCINE WORK?

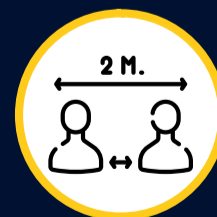

- A vaccine works by helping the body recognise a new sickness, such as COVID-19, and then teaches the body how to fight it.
- When a person comes into contact with this sickness, their body is then ready to fight it and the person does not get sick.

VACCINE FACTS

FALSE

The vaccine has the mark of the Beast – 666.

- Vaccines have no link to any religion. Vaccines cannot be filled with spirits or demons.
- The vaccine was developed to save our lives, not to bewitch, possess or control us.

VACCINE FACTS

FALSE

The vaccine is a way for the West to oppress Africa again.

- The vaccine was not just the work of Western or rich countries. It was a worldwide effort.
- This effort brought together knowledge from across the world. This includes our own excellent doctors and scientists. It has also been tested here in South Africa.
