

INFORMATION FOR PROSPECTIVE STUDENTS

How to calculate your Applicant Score (AS)

- Your Applicant Score (AS) will be different if you took Mathematics, Mathematical Literacy or Technical Mathematics at school.
- Your Applicant Score (AS) is calculated using six NSC 20-credit subjects. Please note that Life Orientation (LO) is excluded as it is only a 10-credit NSC subject.
- Write down your grade 12 subjects and your recent percentage (%) obtained in each subject. You can use your Gr 11 final, Gr 12 June, Gr 12 September or your Gr 12 final NSC/IEB exam results to calculate your applicant score (AS). (**Not** your Gr 12 March results).
- You **MUST** include the results for the following three fundamental subjects: **1)** Home language; **2)** 1st Add. Language; and **3)** Maths; **or** Maths Lit; **or** Technical Maths. Your AS must also include any subjects required by the qualification for admission.
- If you have **seven** Gr 12 NSC/IEB subjects, your AS is calculated by adding the percentages for six 20-credit subjects. This gives a score out of 600.
- If you have taken **eight** or more subjects, your AS is calculated as follows: add the percentages obtained for your three fundamental subjects (two languages **and** Maths, or Maths Literacy, or Technical Maths), plus the percentage(s) for any subject(s) required by the programme, together with the percentage(s) for the next best / highest subject(s), to a maximum of six subjects.
- Compare your AS & subject results to the minimum needed for the qualification you want to apply for.
- If your Applicant Score (AS) & subject results are below the minimum required, you will need to consider either an extended curriculum qualification or another qualification for which you do qualify.
- In addition, for those applicants from quintile 1, 2 or 3 schools who attain 50% or higher for Life Orientation, 7 points may be added to their total score out of 600 to arrive at their final AS.

Calculate your Applicant Score (AS)

Use the table below to calculate your Applicant Score (AS).

School subjects	Your exam results in %
1)	
2)	
3)	
4)	
5)	
6)	
7)
